Mipolam® Ambiance Ultra™ is a homogeneous pressed compacted floorcovering in sheet, with non-directional design, colour dyed as a raw mixture to ensure even color throughout the thickness and a matt finish. Its surface is densely compacted for improved wear and ease of maintenance.

It is treated with Evercare™, the latest improvement in polyurethane special maintenance treatment obtained by UV laser crossing-linking. Evercare™ avoids staining of chemical products, like betadine, eosin, or anti-bacterial hand gel and increases the durability of the flooring. No wax for life!

Mipolam® Ambiance Ultra™ incorporates bacteriostatic and fungistatic actions. The flooring complies with the EN 649 (34-43) and has a Group T wear rating. It is suitable for very heavy traffic areas.

Mipolam® Ambiance Ultra™ is available in a wide pallet of 50 classic and trendy colors.
